Quotation for Website & Web Application Development

We are pleased to submit the following quotation for our **custom-coded** website and web application development services. All work is done from scratch using modern web technologies — **no WordPress or pre-made CMS** used.

1. Static Website (Custom Coded)

- **Starting Price:** ₹5,000/-
 - **Inclusions:**
 - Up to 5 static pages (Home, About, Services, Contact, etc.)
 - HTML, CSS, JavaScript
 - Mobile Responsive Layout
 - Social Media Links
 - Contact Form (basic email or form handler)
-

2. Dynamic Website (Custom Coded)

- **Starting Price:** ₹12,000/-
- **Inclusions:**
 - Up to 10 dynamic pages
 - Admin Panel for content management
 - Add/Edit/Delete Content & Images

- React + Node.js / Express + MongoDB (or MySQL)
 - Fully Responsive Design
 - User Inquiry or Contact Form (with backend)
-

3. Web Application (Custom Coded)

- **Starting Price:** ₹20,000/-
 - **Inclusions:**
 - Full-stack web application with login and admin dashboard
 - Role-based access system
 - Custom features (e.g., user management, billing, reports)
 - REST APIs or Firebase backend
 - Technologies: React + Vite + Node.js/Express + MongoDB or Firebase
 - Modern UI/UX & Fully Responsive
-

Additional Charges (if applicable):

Service	Price (Starting)
Hosting (1 year)	As per selected plan
Domain (.com / .in)	As per domain cost
SSL Certificate (optional)	₹500 – ₹1500/year
Monthly Maintenance	₹500 onwards

Note:

- All prices are **starting rates** and subject to change based on your exact requirements.
- Domain and hosting charges are **not included** in development cost and will depend on your selected hosting panel/provider.

- Final delivery timeline and cost will be confirmed after project discussion.
